

What can I put in my WASTE BIN (BLACK BIN)?

By using all of your Recycling and Food bins to their full potential, this will decrease the amount of waste going into your general waste bin. This will reduce the impact your waste has on the environment. Our Collection Team **WILL CHECK** your waste bin and if any incorrect items are found, your general waste bin will not be emptied. LIQUID WASTE is not accepted in the general waste bin.

Accepted Items

Nappies (Personal Hygiene Products)		Unwashed Recyclables	
Ashes (Must be cooled and tied in the bag)		Plastic Netting (From oranges, onions)
